### What are we learning?

**Math:** In math, we continue to learn about different ways to compare and order fractions. We will be working on using number lines over the next week to help us understand a fraction's value as a number.

**Literacy:** We continue reading and writing informational texts and researching about different kinds of frog adaptations. As we finish up Module 2 we will be creating our own books about frogs.

**Science:** We are working on a unit about landforms. This week we started creating a small, 3-D model of the Earth's surface.

**Social Studies:** Mr. Lee is teaching the kids about geography and maps in Social Studies this quarter. This week they are using the NCAA tournament teams to locate different cities in the US on a map.
